#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
  - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

***Election/Restriction***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I: Claims 1-7, 42-47 and 54, drawn to a subject matter of analyzing an image to determine salient parts which are used to determine an effectiveness of an image displaying, classified in Class 382, subclass 103.

Group II: Claims 8-18, drawn to a subject matter of feature extraction, classified in Class 382 and subclass 190.

Group III: Claims 19-31, drawn to a subject matter of edge detection, classified in Class 382 and subclass 199.

Group IV: Claims 32-41 and 48-53, drawn to a subject matter of motion measurement, classified in Class 382 and subclass 107.

Group V: Claims 55-59, drawn to a subject matter of image editing, classified in Class 358 subclass 452, and class 382 subclass 298.

2. The inventions of Groups I and II are distinct from the each other because of the following reasons:

Inventions I-V are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed, Invention I, does not require the particulars of the subcombination as claimed in Inventions II-V for patentability. The subcombination has separate utility such as: (a)“forming at least a plurality of feature maps and detecting the

difference between the current portion of the image and a surrounding portion of the image using first, second or higher order statistics (Invention II), (b)"determine extended contours and rotating said contours" (Invention III), (c)"analyzing a sequence of temporally changing image" (Invention IV), or (d)"automatically increasing a salience of a specified part of the image" (Invention V).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and required the different field of search for each of these inventions, restriction for examination purposes as indicated is proper.

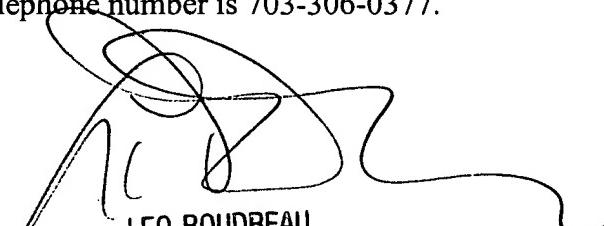

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duy M. Dang whose telephone number is (703) 305-1464. The examiner can normally be reached on Monday to Thursday from 6:30AM to 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Leo H. Boudreau, can be reached on (703) 305-4706. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9306 for all communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-306-0377.
